**Priest** : The priest of the village, he is the keeper of the temple of the village.

**Panchs :** They are the other Panch's of the village , who help Kamat in important decisions regarding the functioning and governing the village.

# **Storyboard**

## **Introduction Text**

In this beautiful country called India, there is a Gokul village. The village of Gokul is governed by Kamat who is the Sarpanch(head) of the village. But Kamat is growing old and needs a successor. Can you, his younger son, take on the responsibilities of the village and make the village prosper.

## **Mission1**

### **Kamat:**

Son, I will teach you about the various aspects towards running a village today. Are you ready to learn? Let us go to the village of Abujamara.

### **Son:**

Father, this is no village, it is just empty land....

### **Kamat:**

Yes, this is the place where once stood the village of Abujamara. The village became a barren land when Ganga cursed the people of Abujamara by changing its course and flooding the Abujamara village. The people are homeless are we will help rebuild their village.

### **Mission Instructions:**

Build a hut to shelter the people of Abujamara. You can build a hut by clicking on Build->Hut.

### **Mission Instructions:**

When you build a hut, some amount of your resources are utilized. For each Hut that you build, 10 units of bricks, 8 units of Tools and 8 units of Water are used. Also, people are required to build a hut. Similarly, anything you build will require materials such as bricks and labour. Try building another hut.

### **Mission Instructions:**

When you build a Hut the Housing bar on the lower right corner of your screen increases. The more this bar is filled the more number of people have huts available for them. High progress bars indicate a happy and prosperous village.

### **Mission Instructions:**

At the lower left corner you can see the total population and total sheltered people. The total population increases with time. Building the Houses increases the sheltered population. You should always try to build enough huts to provide shelter to all the people.

### **Mission Instructions:**

Water, the most basic necessity of life, must always be present to support any kind of habitation. Build a Well for people to get water from.

### **Mission Instructions:**

The next basic necessity of a village is Food. To grow food, you will need to build farms. It is

best to provide a healthy mix of Rice, Beans and Vegetables and Fruits. This will ensure healthy variety and nutrition. You can choose the type of production from the bar-chart for your farm. Click on Build>Farm and adjust the production

**Mission Instructions:**

As you continue building you will require Tools and Bricks. If you run out of them you can buy them from the market. Buying anything requires money and you can see the amount of money available to you in the top right corner of the screen.

**Mission Instructions:**

The settlement has grown, the children here need a place to study. Build a school for them.

**Mission Instructions:**

Well done. But there are no books in this school. Buy the books for the school from the market. The Market Window can be opened by clicking on the market button in the bottom. Once you open the market window, you can click on the thing you need to buy and sell. Then select the quantity in which it needs to be bought or sold. Then click on market.

**Mission Instructions:**

The upgrade button provides technological upgrades. Try upgrading the huts with bricks. Click on the Upgrade and then select Hut

**Mission Instructions:**

Technology upgrades provide better buildings with capacity to house more workers and produce more resources. Thus, they are usually helpful in increasing the prosperity of the village. Upgrade your school

**Mission Instructions:**

You should notice that upgrading a facility increases its productivity. The number of children taught in the School have been increased considerable, also the quality of education is now better. The progress bars have also filled up more.

**Mission Instructions:**

Your village has grown considerably now, hygiene and healthcare are the two the most important aspect of a healthy living. You must build a hospital now for people to get good treatment and medicine.

**Mission Instructions:**

You will have to buy medicine from the market for hospital to run!

**Mission Instructions:**

Your village has now taken the first step towards prosperity. Congratulations

## **Mission2**

**Kamat:**

Nice work with the setting up of the new village. I am really impressed.

**Son:**

Thanks

**Kamat:**

But I wonder, if you are capable enough to work without my guidance now that you have learnt the basics of building a village.

**Kamat:**

I will leave you the responsibility of the village for the next 3 months while I go out for your cousin sister wedding.

### **Mission Instructions:**

Do not let any of the progress bars drop below 35... or else Kamat will not be very pleased.  
Good Luck!

### **Mission 3**

**Kamat:**

Well done son, you have certainly not disappointed me. But our village is now running low on money.

**Kamat:**

I will give you four months to bring more cash into the village. A cash reserve always comes in handy in times of calamities.

**Kamat:**

Also, more cash reserves will enable us to setup more buildings and buy materials and food to improve the condition of our people.

**Kamat:**

As you have already learnt that Tools made in workshops can be traded in market to earn money, you should focus on that.

**Mission Instructions:**

Earn Rs. 5000 more in the next 4 months. But remember, this should not come at the cost of village condition. Do not let the progress bars fall below 25. Good Luck!

#### **Mission 4**

**Kamat**

Respected members of Panchayat, my son has brought Rs 5000 more into the village funds. Now, it is for us to decide what needs to be done with it.

Panchayat discusses the matter in the village assembly....

**Panch**

The Panchayat has reached a decision. We will invest the money in building more schools.

**Kamat**

Yes, children are the future of our village. We want to teach them so that they are able to stand on their feet and bring wealth and prosperity to the village later on.

**Panch**

Yes, and since your son has proved himself adept in administering. We want him to take charge of the money earned and use it to for educating the children of our village.

**Son**

It will be my pleasure.

**Mission Instructions:**

Your mission is simple. Increase the progress bar of Education to 70 while not letting any of the other progress bars to fall below 30 within 3 months.

## Mission 5

**Kamat**

Welcome Ajmal, my son. How have your studies been going on.

**Ajmal**

Thanks father. I am a registered physician now... but what is this. The village hygiene is so poor. This village is a breeding ground for all the diseases.

**Ajmal**

With stagnant water and unhygienic market, diseases are bound to follow. All these diseases will soon take a form of an epidemic if nothing is done for this now.

**Kamat**

Can you work with your younger brother to help avert this situation.

**Ajmal**

Sure father.

**Ajmal**

For providing good health, we need to provide good nutritious food to the villagers. A nutritious diet consists of all the components such as Wheat, Fruits, vegetables and beans.

**Ajmal**

Also we need to setup hospitals and educate people about good practices and simple measures to avoid diseases. Schools setup by you are already doing a good job of it. We just need to bring some good doctors here

**Ajmal**

Can you do all this to avoid an epidemic

### **Mission Instructions:**

Yes, this mission is harder. Take the progress bars for health to 65 and nutrition above 45 and you will be termed as pass.

## Mission 6

**Farmer**

Save us save us ....

**Kamat**

What happened. Where are you running from? Where are your cattle and belongings.

**Farmer**

I have none sir.. I have ran away from my home with my kids and wife since there is a war going on.

**Farmer**

There will be more like me coming. I will work hard, but please give me a place to live peacefully.

Kamat and the Panchayat discusses...

**Panch**

Panchayat has decided that we will let the incoming immigrants into our village and will treat them as our guests. Athiti Devo Bhav.

**Mission Instructions:**

It seems as if there are not enough huts for all the incoming immigrants. Build more huts and increase the progress bar for housing till 80. Also increase the progress for Nutrition upto 50.

## **Mission 7**

### **Panch**

Good day, members of the Panchayat. It has nearly been 4 months since the first immigrants came to our village.

### **Panch**

But most of them are sitting idle, since they were originally farmers and have no farms now.

### **Kamat**

So, what. We will train them in our workshops to produce bricks for our village. Also, we can train them as labourers and they will become a part and parcel of the village.

### **Mission Instructions:**

Good job recovering from the calamity. Train your people so that they turn into useful resources. Increase the training progress bar to 70 to pass this mission.

## Mission 8

**Farmer**

Sarpanch ji, there is no water. The crops are dying. Help us

**Priest**

How can Sarpanch ji help. It is the rain god: Indra who is displeased with us. Let us hold a pooja to please Indra.

**Kamat**

I will do what I can.

**Kamat**

Son...

**Son**

Yes father, is there anything I can do for you.

**Kamat**

Yes son, the monsoon has deserted us. The crops are dying. Farmers believe it is the Indra god who is displeased, but you know better.

**Kamat**

They will be holding a pooja soon. But we need to do more than that.

**Son**

Yes Father.

**Mission Instructions:**

Do not let the nutrition progress drop below 50% and also donot let the water level fall below 500.

## Mission 9

**Kamat**

Son, I am getting old, but I have a faint feeling that something bad is about to happen.

**Son**

Why do you think so, father?

**Kamat**

The signs are there in the animals. Look how the cattle and the sheep are getting restless. They are the ones who know first that the Gods are angry.

An earthquake strikes the village.

Kamat dies during the Earthquake.

Ajmal also comes back to the village after getting this news.

**Ajmal**

Brother, the responsibility to manage the village is up to you now. you must help the people of the village in recovering from this calamity.

**Son**

But bhaiyya, I wouldnt be able to do all this without Fathers help and support.

**Ajmal**

Father had a vision for this village. It had taken him a lifetime to setup this village. You must work for his mission.

**Ajmal**

You must re build everything and get the village back on the path to progress and prosperity.

**Son**

Dont worry brother; I will rebuild the village to its former glory.

**Mission Instructions:**

Mission Objective: Rebuild the village and bring the progress levels to 40%
